

## 2.3 Regulatory Framework

This ASET analysis follows internationally recognized standards and guidelines:

- **NFPA 101:** Life Safety Code - Performance-based design options (Chapter 5)
- **ISO/TR 16738:** Fire safety engineering - Technical information on methods for evaluating behavior and movement of people
- **ISO/TS 13571:** Life-threatening components of fire - Guidelines for the estimation of time to compromised tenability in fires
- **SFPE Handbook:** Society of Fire Protection Engineers engineering methods
